1. Comment. Prior to 9 October, the installations in Oranienburg were occupied as previously except for the first advance elements of the 25th Tank Div which arrived in early October. The arrival of the first units of the division on and after 9 October confirms information which reported that, on 8 October, two trains probably carrying units of the division were dispatched in Templin possibly for their military posts and, on the same day, two trains went from the area east of Rathenow to Oranienburg. The second reference reported that units of the 162d Tank Regt were observed with these shipments returning to their former post.
